

# NORTH WASHINGTON STREET BUS LANE

## HEALTHY STREETS VIRTUAL ENGAGEMENT

Pictured: North Washington Street Southbound Lane

## We want to hear from you!

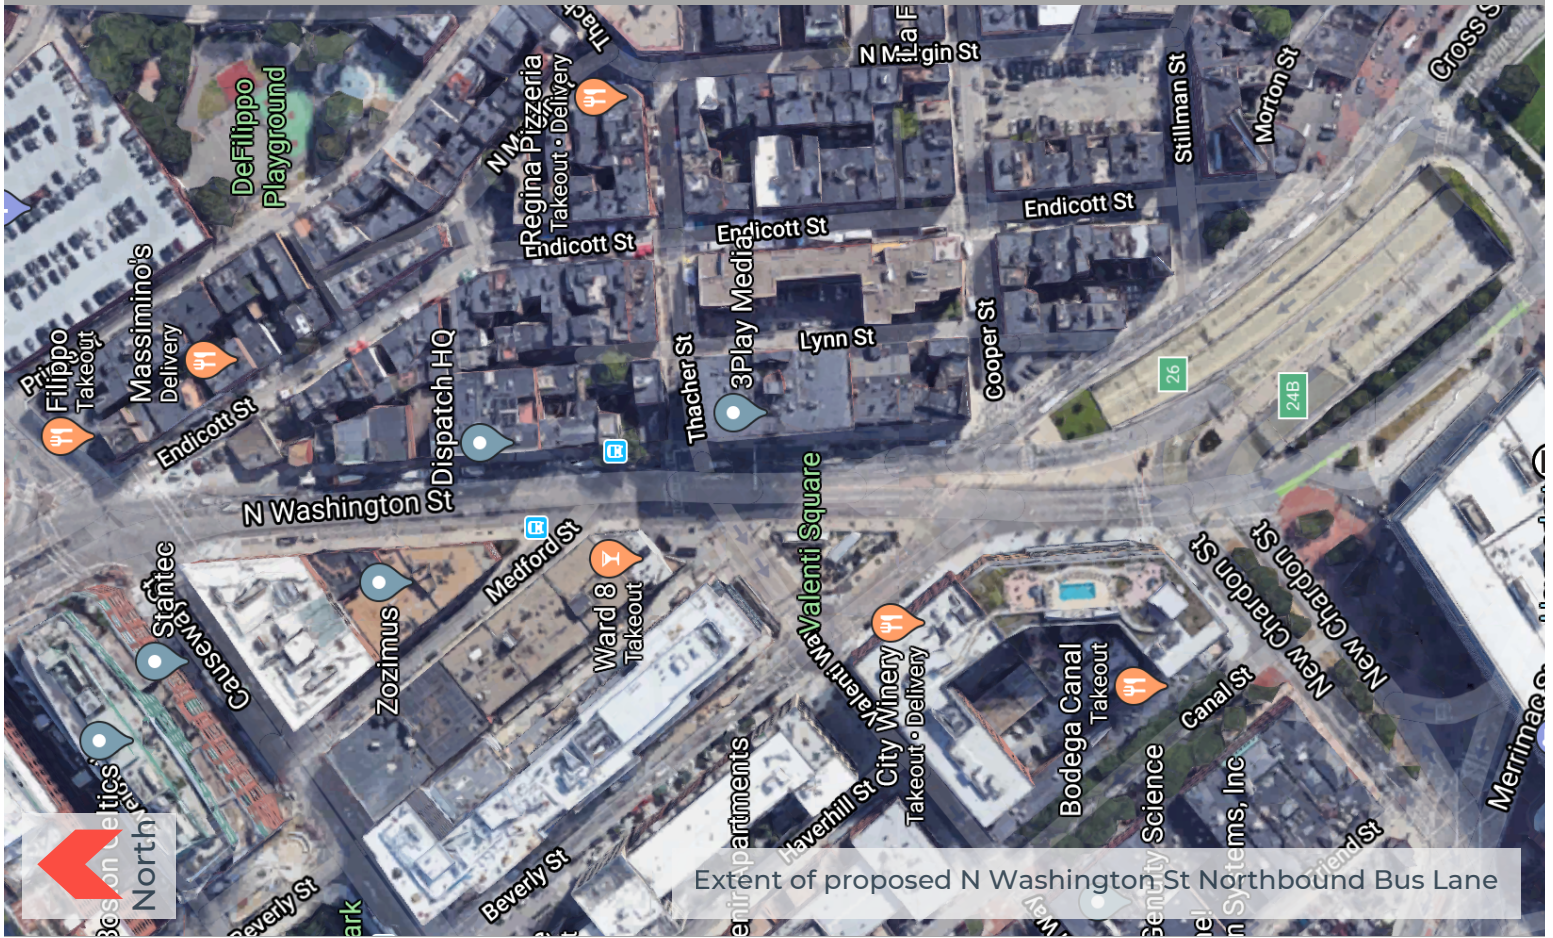

The City of Boston and MBTA are partnering on potential bus lane improvements to North Washington Street. In order to facilitate better northbound bus service we are investigating a potential outbound bus lane. This lane would not impact existing parking or the bike lane. We want to hear from you about this idea!

- Date: Wednesday, July 15th
- Time: 6:00 PM - 7:00 PM

## Healthy Streets Initiative

The Healthy Streets program is focused on making changes to Boston's streets to support a healthy reopening and an equitable recovery. The program includes three major elements:

- Outdoor seating and pick-up zones for restaurants and small businesses
- Quick-build bike lanes for safe and connected bike routes
- Expanded bus stops and bus-only lanes to improve social distancing on transit services
