3.	51000	Permanent Employees	73,227	2%	Step increases

**5) Other Significant Budget Expansions or Reductions - N/A**

**6) Any New Responsibilities Assigned to Department in the Last Two Years -**

The Department of Neighborhood Development is overseeing housing related COVID-19 response activities including administration of federal relief funding; and implementation of the new Condo Conversion Ordinance.

**7) Any Responsibilities Transferred Out of Department in Last Two Years - N/A**

**8) Actual YTD FY21 Spending - *See Separate Attachment (Appendix B)***

**9) FY21 Savings Realized by Department - N/A**

**10a) Changes to External Funds** - No major changes to external funds

**10b) Federal Funds related to COVID in FY21 and FY22**

In response to the COVID-19 pandemic, Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act which was signed into law on March 27, 2020. The legislation included much needed resources for entitlement grant communities. Boston was awarded a total of \$20M in CDBG, \$28.5M in ESG, and \$450K in HOPWA funding.

Boston also received \$20.7M in Emergency Rental Assistance funding from the US Treasury Department as part of the Consolidated Appropriations Act of 2021 and an additional \$15.8M in the American Rescue Plan Act. This funding is specifically targeted to rent relief.

DND was also allocated \$23.5M in Coronavirus Relief Funding received in the CARES-CRF.

**11) List of 5 Major Accomplishments - FY21 – See Separate Attachment (Appendix C)**

**12) Chief FY22 Goals, Ongoing and New Initiatives – See Separate Attachment (Appendix D)**

**13) Multi-year Projects or Investments, Discuss FY21 Ramp-up or Wind-down in Spending, and Future Year Plan** - In FY21 the City unveiled the City-Funded Housing Voucher Program, investing \$2.5M in assisting individuals by subsidizing housing costs over half the fiscal year. The program is annualized in FY22 for a total budget of \$5,000,000.

**14) Any Expanded Budget Authority Not Granted, But Plan to Resubmit in Future**

While additional resources can always be put to good use, the department understands the necessity of doing more with less in difficult fiscal times.

## **15) Departmental Financial and Personnel Resources Devoted to Language Access**

### **FY21 Language Communications Access (LCA) Allocation (in ONS Budget) - \$30,000**

Funds are used to access Language Line Services, live three-way calling between staff members and Bostonians requiring access in languages other than English. The line is currently being used heavily by the Office of Housing Stability staff helping renters in distress. The expectation is that the usage of this service will increase late in FY21 and into FY22 as the Eviction and Foreclosure Moratoriums expire and calls for assistance from homeowners to the Boston Home Center begin to rise.

### **Other Financial and Personnel Resources - \$25,000 in CDBG Grant Funding**

This amount reflects payment to LCA-approved certified vendors and interpreters for critical documents, as well as live interpretation of community meetings (upon request) and all public hearings for any HUD-related funding (i.e. the annual Action Plan Hearing). This amount does not reflect additional monies used for printing and distribution of translated materials. It also does not reflect the language access requirements in the vendor contracts the Boston Home Center has to provide for homebuyer education in languages other than English. In addition, the Boston Home Center contracts for foreclosure and other financial counseling services related to homeownership which also require translated materials.

**16) Five Year Analysis of Full-Time Equivalents as of January 1**

## 20) Employee Counts with Language Competency in the Volunteer Pool

Language	# of employees
Spanish	1
Chinese (Cantonese, Mandarin, Toisanese)	1

In addition to the 2 DND employees in the volunteer pool who are available to help other departments, many DND staff members routinely interact with Bostonians in Spanish, Haitian Creole, Cape Verde Creole, Mandarin, and Cantonese. This is particularly true of staff members in the Office of Housing Stability and the Boston Home Center, many of whom are using their language skills daily, but staff members in other divisions have and do work to assist constituents as needed in these languages.

## Performance Measures

Measure	FY19 Actual	FY20 Actual	FY21 Proj	FY22 Target	Comments on Targets	Trend Narrative
# of homeowners assisted with foreclosure prevention counseling	226	187	150	230	Target based on the number of petitions filed	As property values in Boston have increased, lenders are more likely to foreclose on properties. FY20 and FY21 decrease is due to foreclosure moratorium (COVID).
# of potential evictions averted	680	663	850	850	Target is baked on the current trend in requests for eviction prevention assistance	Eviction filings have increased in the Eastern District Housing Court, which has led to an increase in requests for assistance over the past 3 years. FY20 decrease due to eviction moratorium (COVID).
# of housing-insecure households placed in permanent housing	456	243	150	325	Target is based on current trend	Other than the bump in FY19, the trend has been steadily in the 300-325 range, which the department expects to continue. FY20 and FY21 decrease due to eviction moratorium (COVID).
# of middle income housing units permitted (deed restricted and market)	882	1,460	1,542	1,485	Target is determined by comparing actuals to Housing Boston 2030 Plan target and calculating what is needed per year to achieve goal.	Private market rate development dropped as the market shifted away from large downtown projects toward smaller neighborhood projects, and the volume of smaller neighborhood projects is ramping up.

## Performance Measures

Measure	FY19 Actual	FY20 Actual	FY21 Proj	FY22 Target	Comments on Targets	Trend Narrative
# of low income housing units permitted (deed restricted and IDP)	254	207	533	542	Target is determined by comparing actuals to Housing Boston 2030 Plan target and calculating what is needed per year to achieve goal.	Affordable housing permits can vary widely from year to year, as just one project being delayed by a year can make a big difference in the permitted unit numbers.
Total # of net new housing units permitted	2,387	3,599	3,304	3,303	Target is determined by comparing actuals to Housing Boston 2030 Plan target and calculating what is needed per year to achieve goal.	Private market rate development dropped as the market shifted away from large downtown projects toward smaller neighborhood projects, and the volume of smaller neighborhood projects is ramping up.

## Performance Measures

Measure	FY19 Actual	FY20 Actual	FY21 Proj	FY22 Target	Comments on Targets	Trend Narrative
# of homebuyers assisted with down payment assistance	81	55	95	191	Target is based on prior year's performance plus the amount of affordable deed restricted units expected to come online in FY22, which many of the department's buyers purchase	FY20 actual was lower because the pandemic hit in the spring of 2020, which is typically when we see the bulk of closings. We saw an increase in FY21 but not as high as expected because of the continued effects of the pandemic as well as reduced inventory levels and changing market conditions. We expect more buyers will be looking for units in FY22 so our targets should hold but they may need to be adjusted downward if inventory continues to be at historic lows.
# of homeowners assisted through the home repair and rehab program	1,084	830	653	653	Target is based on FY21 projection	The number of repairs can vary from year to year due to the nature of the program, traditionally hovering around 1000. FY20 decrease due to COVID. FY21 and FY22 are expected to be impacted by COVID as well.

## Performance Measures

Measure	FY19 Actual	FY20 Actual	FY21 Proj	FY22 Target	Comments on Targets	Trend Narrative
# of chronically homeless individuals placed in permanent housing	244	236	63	N/A	Measure has been replaced with # of homeless individuals placed in permanent housing	
# of homeless individuals placed in permanent housing	1,202	1,414	840	1,000		
# of homeless veterans placed in permanent housing	265	219	166	200	Variations in actuals occur each year due to fluctuations in housing resources, housing market vacancies, etc.	The number of project-based opportunities available to formerly homeless veterans fluctuates each year, depending on whether or not a development targeted to formerly homeless veterans opens in a given year and how many units are in the building.
# of land parcels and buildings sold or transferred for development and open space	66	27	103	95	Target is based on the department's pipeline of properties slated for sale and where they are in the disposition process.	Property disposition actuals are influenced by many variables, which account for the changes from year to year.

# Appendices C & D

## ***FY22 Appendix C & D - #11-12 List of 5 Major Accomplishments & FY22 Goals***

The Department of Neighborhood Development (DND) provides services to the citizens of Boston in 5 core areas. Major accomplishments in each core area are as follows:

### **Creating and Preserving Affordable Housing**

- In FY21, we have stayed on pace to achieving our Housing Boston 2030 goal of 69,000 new housing units by 2030. Here is our progress as of April 2nd:
  - Total Housing Production: 36,344 units have been permitted or completed, representing 118% percent of the City's target to date
  - Low Income Housing: 2,917 units have been permitted or completed, representing 78% of the City's target to date
  - Middle Income Housing: 12,437 units have been permitted or completed, representing 106% of the City's target to date. Of those, 3,949 are income-restricted units and 8,488 units are middle-income affordable market units
- In March 2021, DND awarded more than \$34 million in new funding to create and preserve 841 income restricted units in 15 developments across the City, with 198 of the units creating permanent housing opportunities for homelessness individuals and families experiencing homelessness.
- In FY21, through the Acquisition Opportunity Program (AOP), DND has funded the acquisition of 326 units of market rate housing to convert to income restricted affordable housing, including 207 units at Morton Village in Mattapan. First launched in 2016, the AOP allows responsible developer partners to act quickly and compete with speculative buyers to purchase rental properties, preserving tenancies for low income Bostonians, preventing displacement and increasing the City's protected affordable housing stock. 591 units have been acquired since the start of the program.

### **Ending Homelessness**

- To date in FY21, the Supportive Housing Division (SHD) placed 38 chronically homeless individuals, 97 homeless veterans, and 136 homeless unaccompanied youth and young adults in permanent housing with services. A total of 498 adult individuals have exited homelessness to permanent housing in Boston during FY21.
- SHD is administering over \$28M in Emergency Shelter Grant (ESG) stimulus funding to expand and modify shelter operations, prevent homelessness among individuals and families, and provide rapid rehousing to individuals and families in shelter. To date SHD has awarded ESG stimulus funding to 16 nonprofits. Vendors will serve a target of more than 2,300 households in FY21 and more than 3,600 households in FY22. SHD continues to work with the Boston Continuum of Care to award additional funding based on emergent needs.

### **Preventing Displacement and Stabilizing Housing**

- In response to the ongoing pandemic, the Office of Housing Stability (OHS) established the Rental Relief Fund, providing critical rental assistance to low and moderate individuals and families across the City who have been economically impacted by COVID-19. To date, OHS has distributed over \$9 million in Rental Relief Funds to 2,130 households.

### **Strengthening Homeownership by Creating Equitable Home Purchasing Opportunities**

- To complement DND's successful homebuyer assistance programs, the Boston Home Center (BHC) launched the First Generation Homebuying Program. The program assists income-eligible first-generation homebuyers in purchasing a home in Boston for the first time with a 2:1 matching funds program, a major step in creating equity opportunities and access to all Bostonians.

### **Managing and Disposing of City-Owned Property**

- Since 2014, DND has sold or transferred 357 parcels totaling 2,381,487 square feet of land, which has generated \$7,932,847 in revenue for the City. These parcels will create 1,051 units of housing, 714 of which are income-restricted affordable units, and 581,346 square feet of open space.

## ***Chief goals for FY22, divided into ongoing and new initiatives.***

In FY22, DND will continue to provide outstanding community development services to the residents of Boston. These services include funding the creation of low, moderate, and middle income housing in Boston; promoting homeownership by assisting Bostonians in obtaining, maintaining, and retaining their homes; ending homelessness in our City; preventing displacement and stabilizing housing; and developing City-owned property to meet the City's community development objectives.

### **Chief Ongoing Goals for FY22 by core area:**

#### **Creating and Preserving Affordable Housing**

- Ensure growth and affordability in Boston's housing market by creating 3,303 new units of housing to keep pace with the Housing Boston 2030 Plan goal of 69,000 new units by 2030, with a significant share of those units for low and middle income households.

#### **Strengthening Homeownership**

- Help over 650 homeowners, including seniors, improve their homes and communities through Boston Home Center's home repair and rehabilitation programs
- Foster Homeownership in Boston's neighborhoods by providing down payment assistance to 191 first-time home buyers
- Assist existing homeowners in retaining their homes by providing 230 homeowners with foreclosure prevention counseling

#### **Ending Homelessness**

- Place 1,000 homeless individuals and 200 homeless veterans into permanent housing with services
- Assist approximately 200 homeless youth and young adults through the programs outlined in the City's youth homelessness action plan
- Leverage federal COVID-19 relief funds to ensure adequate, safe emergency shelter and increase supportive housing opportunities for homeless households

#### **Preventing Displacement and Stabilizing Housing**

- Place 1,000 homeless individuals and 200 homeless veterans into permanent housing with services
- Assist tenants and landlords in preserving tenancies by preventing 850 potential evictions and placing 325 housing-insecure households into permanent housing
- Continue to assist renters impacted by COVID-19 through the Rental Relief Fund

#### **Managing and Disposing of City-owned Property**

- Sell or transfer a total of 95 City-owned land parcels and buildings for housing development and open space projects

## **New (or expanded) Initiatives for FY22**

### **Preserve and Generate Affordable Rental Opportunities**

- The City will fund a full year of the City of Boston Voucher Program (CBVP) launched this past January, at an annual cost of \$5 million. The CBVP will provide rental assistance to hundreds of low-income Bostonians through project-based and tenant-based vouchers. The program is administered by the Boston Housing Authority through a Memorandum of Agreement with DND.

### **Additional Support for Homeless Individuals and Families post-COVID**

- The City is investing \$2.5 million in homelessness initiatives to fill critical gaps that are not eligible costs under current federal resources. This funding will be used to extend rapid rehousing rental assistance beyond the one-year duration currently provided under federal CARES Act grants. It will also provide funding for four additional Peer Housing Navigators to connect homeless households with housing and support services.

### **Promote Equity in Boston's Economic Future**

- The budget includes \$1 million to provide capital funding for construction or rehabilitation of ground floor commercial space in affordable housing buildings to enable developers to charge below-market rent to local businesses and nonprofits, especially minority-, women-, and veteran-owned entities.
