

THE AFFORDABLE CONNECTIVITY PROGRAM

The Affordable Connectivity Program offers eligible households up to \$30/month for internet service (and \$100 as a one-time discount for a device).

WHAT IS IT?

The Affordable Connectivity Program (ACP) helps eligible households meet their digital needs for the next five years.

If eligible, the ACP pays up to \$30/month for broadband internet service or wireless data. If your bill is \$30 or less, that means you get free service!

The ACP also offers a one-time discount of up to \$100 towards a laptop, tablet, or desktop computer. A list of service providers that offer the device discount can be seen [here](#)¹.

The Affordable Connectivity Program is limited to one monthly service discount and one device discount per household.²

HOW TO APPLY

- Submit an application online at AffordableConnectivity.gov.
- Through the mail in either [English](#) or [Spanish](#).³
- Contact an internet provider directly. Use this [online tool](#)⁴ to find a participating provider near you if you do not have one.

To find out more about the ACP, check out the [program website](#)⁵, call Boston's Broadband & Cable Office at 617-635-3112, or email Digital.Equity@boston.gov.

² A household is a group of people who live together and share money, while those who live together and *do not* share money are each their own separate household. Households qualify for ACP if any member meets the eligibility criteria for a participating provider's existing low-income program.
