

What is a "Green Link"?

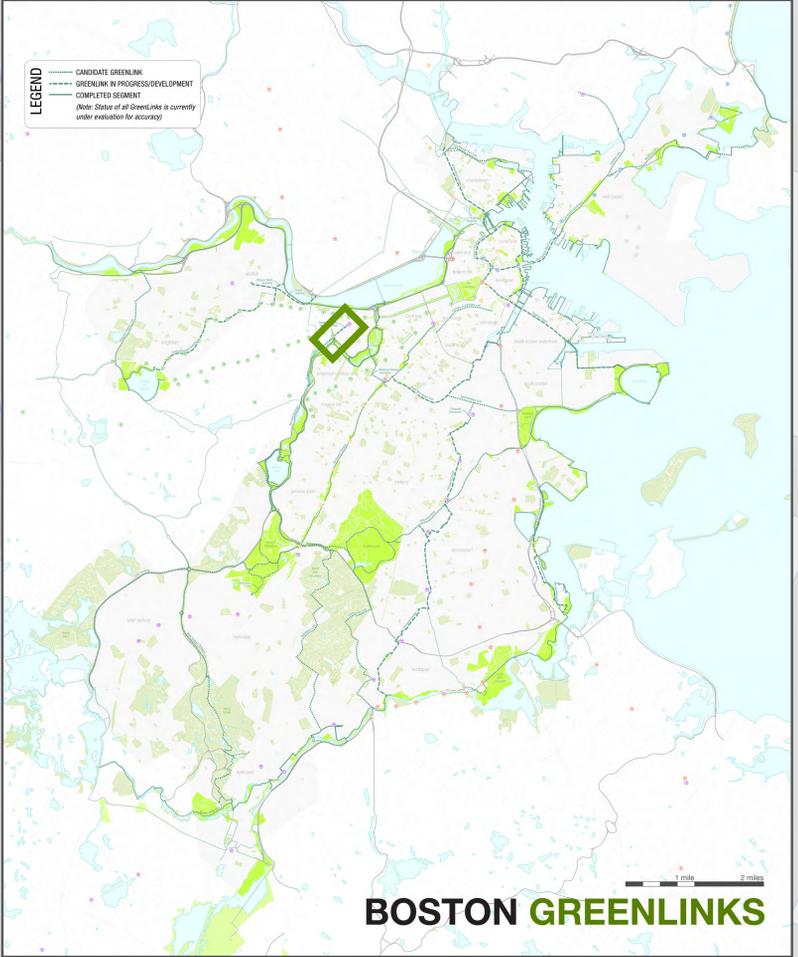

Green Links are missing bike and pedestrian connections that, when completed, will create a seamless network of greenway paths called the "Emerald Network."

Phase I was completed in 2023 by MassDOT

Phase II was completed in 2022 by the Landmark Center

Phase III will be completed by the MBTA and the Landmark Center. It will extend under Park Drive and connect to the Emerald Necklace.

Direct connection to the Emerald Necklace in Brookline

The Fenway Multiuse Path

is a proposed Green Link that would extend from the Emerald Necklace Muddy River Path to Maitland Street adjacent to the Green Line D Branch right of way.

Sections of proposed off-street shared use path between Maitland St & the Emerald Neckale
