Article(s): 62(62-62-25) 62(62-11: Floor area ratio is excessive & Height is excessive)
Purpose: I'm the owner of 236 Bunker Hill St. Apt 4 in Charlestown, MA. I purchased my apartment 2 years ago and it came with an existing roof deck. A few months ago, one of my neighbors asked me about the type of permit used for the construction of that deck (built 9 years ago). After searching on the Inspectional Services website I learned that the form used was a short form to "replace an existing deck" instead of a long form permit to build a new deck from scratch. I hired an architect to validate that the existing deck complies with the City of Boston Code and Zoning and it does. I'm attaching plans for the building before it had a deck and the architect's analysis on the deck's structure and overlay on the property. My goal is to legalize this deck and avoid having to tear it down. Changed date on refusal letter from 8/31/2017 to 8/24/2018
